

WHAT IS CLAIMED IS:

1. A vehicle running board, comprising:

a first side pipe, being hollow inside and having a straight pipe section and a curved pipe section, and said curved pipe section having a fixed base;

5 a second side pipe, being hollow inside and having a straight pipe section and a curved pipe section, and said curved pipe section having a fixed base;

a middle pipe, being a hollow straight pipe and having an embedded section on both ends; by means of the foregoing structure, the middle pipe being used to embed said embedded section between the straight pipe sections of
10 said first and second side pipes.

2. A vehicle running board as claimed in claim 1, wherein said fixed base is disposed in the end opening of the curved pipe section of the first and second side pipes, and a screw nut and a screw hole formed by said screw hole are disposed on said fixed base.

15 3. A vehicle running board as claimed in claim 1, wherein said first side pipe having its straight section longer than that of the second side pipe.

4. A vehicle running board as claimed in claim 1, further comprising a step mat.

5. A vehicle running board as claimed in claim 4, wherein said step mat is
20 disposed on a pipe body between said first side pipe and said middle pipe.

6. A vehicle running board as claimed in claim 4, wherein said step mat is disposed on a pipe body between said first side pipe and said middle pipe.
